Wizard of Wor™

Simultaneous 1 or 2 Player Full Color Video Game — that TALKS!

Players control a separate squadron of warriors and compete for score at the same time. Warriors descend into various dungeon mazes, battling visible and invisible monster Worlings, and maybe the Wizard himself. Teamwork in the two player mode is important—but not necessary to play. If one player mode is selected, the computer becomes the second player.

Warriors are easy to operate for movement in the dungeons with a four direction joystick and fire button for their unlimited-disturbance rifle.

The object of WIZARD OF WOR is to descend into the many dungeons of Wor killing monsters, beating the Wizard and earning a high score.

Dungeon maze patterns appear at random and have Escape Doors at either end. These are used for strategic exit and entry by Warriors to outwit the monster Worlings. They are also a means of escape for Worluk. If this monster is hit by either player, the score of subsequent play is doubled. The Radar Screen reveals the general location of invisible monsters in the maze to alert the Warriors.

Throughout the game the Wizard talks to players with 71 challenging phrases to incite continued play. Full color video screen is accented by action sounds and haunting mood music.
